DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C.

121:

- I. Claims 1-20 and 39, drawn to a call routing, classified in class 455, subclass 445, 417.
- II. Claims 21-26 and 40, drawn to security, classified in class 455, subclass 410, 381.
- III. Claims 27-38 and 41-42, drawn to Talk group forming, classified in class 455, subclass 416, 518, 519.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects See MPEP § 806.04, MPEP § 808.01. Invention II has separate utility such as establishing and anonymous communication link between an originating user and target user and the use of a bridge name and password which is not required in invention I that is concern with establishing a communication channel between originating user and target user. Invention III has a separate function such as establishing communication between an originating user and a target user within a group network.

Art Unit: 2688

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II and III, restriction for examination purpose as indicated is proper.

4. A telephone conversation was made to Albert Smith on November 30, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to his requirement to be complete must include an election of invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
